The LTNK

PRESIDENT'S MESSAGE

Dear Chamber Members,

Once again I can announce the Lakeside Western Day's Parade was a great success. Lakeside proved this is truly the best place to work and live, from the beautiful equestrians, the funny clowns, the off-roaders and heavy equipment, to the wonderful kid's floats. All this could not have been accomplished without the untiring help from my committee members and volunteers. A big thanks to Steve Menefee and his traffic committee for their hard work ensuring the parade route was safely secured, Terry Leimbach and her team of Judges facing the daunting task of choosing our trophy winners, Kathy Kassel for her many hours of organization, Mary Allison & Julie Bugbee for their well planned V.I.P. Party, to Donna Greene for all her hard work planning & organizing the Kid's floats, and to the many, many friends and family who volunteer their time managing each division, making sure each parade entrant is in their proper place. It is all these *behind the scene* tasks that allows the Chamber to host this wonderful tradition. I also want to thank all of our sponsors, whose support is greatly appreciated.

We welcome May as the month to honor our community leaders. Do you know someone who goes above and beyond the call of duty, volunteering their time, giving of themselves selflessly, helping the Lakeside community and generally being a decent human being? If so, please take a moment and submit their name for Lakeside's Harry J. Spence Citizen of the Year Award. What a wonderful way to say Thanks!

And let's not forget business, sign up today for our Happy Hour Business Mixer and the Mega Mixer this month. And, as always, if you have ideas, thoughts, suggestions, compliments and/or helpful hints, please feel free to contact me @ 619-889-7722 or eggman1@cox.net.

Frank Hilliker
President

Our 2005/2006 Board of Directors

President: Frank Hilliker
1st V.P.: Chad Ennis
2nd V.P.: Steven Menefee

Save energy and help the community with Summer A/C Saver

SDG&E® is encouraging small businesses to help the community – and receive financial incentives – by saving energy during critical times this summer. Summer A/C Saver is a Demand Response program from SDG&E that helps reduce the region's electric load during extremely hot summer days when air-conditioning use soars.

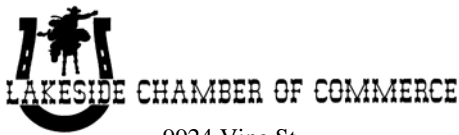

Summer A/C Saver can help your business save energy with no loss of comfort for your employees or customers, and without disrupting your business operations. In fact, your business can earn over \$8 in annual bill credits for each ton of central air-conditioning capacity at your business with Summer A/C Saver.

How it works

When you enroll in Summer A/C Saver, a small wireless device is installed to each outdoor central air-conditioning unit at your business. On hot summer days, a signal is sent to activate each device and cycle the cooling unit (compressor) on and off for a few hours.

Air conditioning units can be cycled for up to 4 hours per day for 15 events from May 1st through October 31st – and never on holidays or weekends. Most building occupants don't notice cycling periods—typically room temperatures may increase by only 1 to 3 degrees. The device only works when your air-conditioning unit is running and is not an on-off switch.

Summer A/C Saver is one of the ways SDG&E is developing energy solutions to help the region. For details or to enroll in the Summer A/C Saver program, call **1-800-850-1705** to reach Converge Inc., the contractor responsible for installing, servicing and removing the wireless device.
